

# DESIGN INTERN

SWEET  
SNEAK  
STUDIO

Since its very first pop-up bakery event in 2013, Sweet Sneak has been growing from a fun project into a creative food studio. Today Sweet Sneak Studio helps other companies strengthen their brand experience by using the power of food, designing concepts with a focus on events, communication strategies and visual work. We understand design as a broad field – in our daily work, design is reflected in several layers and includes the creation of visuals and communication material as well as design of event spaces, food set-ups all the way to food itself as a design object.

We are therefore looking for someone from the field graphic design or photography who shares our passion for food, aesthetics and telling stories.

#### The internship consists of assisting our team in:

- › Branding and corporate design
- › Packaging design
- › Graphic and space design for events
- › Food styling, photography and post-production

#### In addition to your passion for food, you should show the following skills:

- › Currently studying graphic design, food design or photography
- › Passionate about design that people can enjoy
- › Outstanding sense for conceptual thinking and an eagle eye for details
- › Not afraid to take initiative and work independently
- › Problem-solver mentality

#### What can we offer you?

- › Hands-on experience in an ambitious creative studio
- › Responsibility and freedom to let your creativity flow
- › Good vibes: At Sweet Sneak Studio we achieve the best results by working together
- › Great atmosphere: Work with us in the nicest studio in town or sneak into the coolest venues all around Copenhagen for our projects
- › Lunch, coffee & snacks

#### Formalities

- › Duration: 4-6 months, part-time (15-20 hours)
- › Compensation: the internship is unpaid. Good amounts of delicacies to be expected though!
- › Start date: August / September

**Digital or analogue, typed or handwritten, quiet or loud.  
We look forward to meeting you!**
